Over the past 7 years, the Knowledge academy has grown to 300 staff, training corporates and public sector internationally in professional courses from Digital Solutions to Health & Safety to Programme Management. The Knowledge Academy prides itself in its agility to adapt and respond to client's business demands whilst maintaining world class quality – we move as fast as you need us to!

We will be offering job roles in-line with our current core business however our experience and ability to provide diverse education in any area will be available to our employees.

The TKA approach to Careers

- **A rewarding experience** encouraging people to achieve greatness
- **Flexibility** in the work environment letting you meet your personal responsibilities
- **Career development** is consistent from the word go, and throughout the duration of your employment
- **Be yourself** in a friendly but focused work environment
- **Fast paced** environment ensuring involvement with a variety of projects
- **Mentoring & networking** lets you learn from the experiences of professionals within and outside your areas of expertise
- **Innovation & ideas** are expected and never dismissed in our workplace
- **A sense of community.** As apposed to separate departments doing separate jobs, we encourage consistent and meaningful engagement and communication between all areas of the company.
